

Crystal Lake Township Cemeteries

Monument Foundation Prices

As of February 2021, these are in-stock pre-cast sizes costing approximately \$0.30 psi for purchase, transport and installation by the CLT sexton; custom sizes available upon request. To figure the correct size for your needs, measurement the base of your monument and then add a minimum of 2-3 inches on all sides. Very large and heavy monuments will require even more. Final determination of size needed and the job of ordering and installing the appropriate foundation will rest with CLT personnel.
