IMPORTANT NOTES:

- 1)** These fees are minimum charges. Additional fees may be charged for unforeseen problems, especially if inclement weather or other situations present, such as the need for snowplowing or the necessity to move headstones or plantings both before and after burial. These charges may or may not be anticipated before burial and will be billed based on reasonable compensation rates for labor involved. Disputed costs shall be adjudicated by the Cemetery Committee and/or the CLT Board.
- 2)** The fees listed on this document are those charged by the township and do not include those that may occur when engaging a private funeral service provider and vault company for its services or products. If you are employing a funeral service provider, check to see if the prices quoted to you include burial fees due to the township or not, as sometimes they are. Whether your payment for burial comes through the service provider or is paid directly to the township should be made clear as arrangements are being made. Ultimately, all township-related costs of burials and dis-interments shall be the responsibility of the party requesting same; these are including but not limited to burial rights, burials, foundations and other unforeseen costs.
- 3)** No activity in the cemetery grounds shall take place until sexton has agreed to conditions, and payment deemed sufficient to overall costs shall be posted with the CLT treasurer prior to activity, or upon a set/signed arrangement with the prior approval of the designated township official and the funeral director or sexton.
