

# Crystal Lake Township Cemetery North

## Close Up for Section "H"

Not to Scale, for Identification Use Only

Updated October 2015

To date (July 2015) no exact measurements for these plots have been found in Township records. It is *assumed* that they are each 10 deep and 16 wide. However, actual measurements of boxed off sections vary widely.

Always check, and work with your Township official to manage your plots.
